

ADVANCED FINANCIAL MANAGEMENT

Programme Overview

In the fast changing business environment, finance executives need to develop skills in identifying trends in the business environment and evaluating business opportunities. Risk assessment and mitigation are also extremely important functions within the purview of the Finance function.

This programme has been designed to provide a comprehensive coverage of the latest developments in the field of finance. The programme combines financial rigor with strategic insights to enable finance executives to develop skills in measuring and managing shareholder value. The programme also provides insights into the tools and techniques currently available for the effective management of risk. The programme concludes with the design of performance measurement system its linkages with incentive compensation.

Impact

- ◆ Track developments in the business environment & understand their strategic implication
- ◆ Gain insights into the financial aspects of organic and inorganic growth
- ◆ Develop an understanding of the risk assessment procedures and strategies for risk mitigation

Participant Profile

Senior finance executives with responsibilities in the areas of financial planning, treasury, mergers and acquisitions and risk management. Managers with an understanding of basic finance and who are involved in capital investment and financing decisions, would also find the programme useful.
